

# CA DRY

# CA DRY

The range of compact and powerful Comac professional vacuum cleaners

Easy handling and high performance are just some of the advantages guaranteed by the professional vacuum cleaners in the CA Dry range, made up of three models: CA 15 EASY, CA POD EXTRA and CA POD SILENZIO.

Designed to be simple to use but capable of always guaranteeing high standards of cleanliness, these small and handy vacuum cleaners are perfect for daily cleaning and cleaning of hard-to-reach areas. Energy efficiency and high performance are fundamental requirements of the CA Dry range, which, combined with a perfect mix of reliability and lower noise levels, make these vacuum cleaners suitable for operating in any conditions.

The CA Dry range of vacuum cleaners therefore represents the ideal choice for cleaning companies and for environments in the HoReCa, Wellness & Sports, Public, Healthcare and Retail sectors.

## THE ADVANTAGES OF THE CA DRY RANGE

- CA15 EASY is the ideal vacuum cleaner for carrying out cleaning operations where practicality and efficiency are the necessary characteristics. Robust and high-performance, it allows continuous work over time to obtain a professional clean with minimal expense.
- The incoming air for CA 15 EASY is filtered by a double paper bag and by a sponge and cartridge filter.
- CA POD EXTRA and CA POD SILENZIO are more complete vacuum cleaners, with a new cube design capable of saving space and increasing collection capacity.
- CA POD EXTRA is equipped with a sponge outlet filter, easily removable to facilitate maintenance operations and a primary fabric filter.
- HEPA filter available as an optional on the entire CA DRY range
- CA POD SILENZIO is supplied as standard with an outlet filter and primary cartridge filter.
- The power button of the CA POD SILENZIO vacuum cleaner allows you to adjust its suction intensity to best adapt to the situation to be faced.
- CA POD EXTRA and CA POD SILENZIO are equipped with a 12 m high visibility cable, with quick release system and anti-tear system to increase operator safety during cleaning operations.
- CA POD EXTRA and CA POD SILENZIO are characterised by a new system for attaching and detaching the suction hose, which occurs via screwing.
- The wide range of accessories makes this range of vacuum cleaners extremely customisable.

Suction: 1 motor

**CA POD SILENZIO**  
Tank capacity: 15 l  
Type: professional DRY  
Suction: 1 motor

# CA 15 EASY

The small and handy Comac entry level vacuum cleaner, ideal for cluttered environments

## THE ADVANTAGES OF CA 15 EASY

- The **convenient ON/OFF power button** is positioned on the rear of the vacuum cleaner.
- Thanks to the **inlet cartridge filter** and the **sponge filter**, CA 15 EASY reintroduces clean air into the environment.
- **HEPA filter** available as an optional.
- The **handle** positioned in the upper part allows you to move CA 15 EASY anywhere and effortlessly.
- Its **4 wheels, two pivoting at the front and two larger ones at the rear**, allow you to move the vacuum cleaner in any direction.
- Its **small dimensions** make CA 15 EASY ideal for carrying out cleaning operations, where practicality and effectiveness are necessary characteristics.
- The **suction hose** attaches conveniently to the front of the vacuum cleaner.
- **Professional cleanliness and efficiency** make CA 15 EASY the basic Comac vacuum cleaner ideal for cleaning different types of environments.
- Thanks to the **10 m high visibility cable**, CA 15 EASY is able to reach even the most distant areas without the need to worry about charging.
- The **combined main suction brush** with bristles allows it to best adapt to every floor.
- The **two black painted steel extensions** allow the operator to reach even the most distant areas.

# CA POD EXTRA

The practical and lightweight vacuum cleaner that makes a difference

## THE ADVANTAGES OF CA POD EXTRA

- The **convenient power button** located on top of the vacuum cleaner has a red light when the vacuum cleaner is connected to the mains but not during vacuuming and a white light when the vacuum cleaner is in use.
- The **inlet fabric filter and the outlet sponge filter** are easy to remove to facilitate maintenance operations, the HEPA filter is available as an optional.
- The **foldable handle** positioned in the upper part of the aspirator facilitates its transport.
- Its **4 wheels, two pivoting at the front and two larger ones at the rear**, offer excellent mobility even in congested environments.
- Thanks to its **innovative design**, CA POD EXTRA can move easily even in the narrowest spaces.
- The **innovative cube shape** increases the capacity of the collection container and its resistance, thus guaranteeing prolonged suction over time.
- The **collection bag** is large and easy to replace.
- The **large rear compartment** allows you to store the cable and accessories of the vacuum cleaner, making CA POD EXTRA compact and ideal even for small spaces.
- **Two fixing points** for the various accessories (lateral and rear) to hold the suction hose
- The **12 m high visibility cable** is equipped with quick release and anti-tear system to increase operator safety during cleaning operations.
- The **lever** positioned on the front allows you to easily open the vacuum cleaner to work on the motor unit, on the filter or to replace the collection bag once full.
- The **new 2 m hose** screwed attachment system makes CA POD EXTRA extremely safe and simple to use.
- The **two painted steel extensions** allow the operator to reach even the most distant areas.
- Two nozzles available, an **upholstery nozzle** for vacuuming horizontal and vertical surfaces and a **flat lance** for correct cleaning of corners and skirting boards.
- The **high-efficiency combined suction brush** allows it to adapt to every floor.
- The **low noise level** makes CA POD EXTRA suitable to be used even in the presence of people.

# CA POD SILENZIO

The silent and powerful companion  
for flawless cleaning

## THE ADVANTAGES OF CA POD SILENZIO

- The **convenient power button** located in the upper part of the vacuum cleaner has a red light when the vacuum cleaner is connected to the mains but not during vacuuming and a white light when the vacuum cleaner is in use.
- The CA POD SILENZIO **power button allows you to adjust the suction** power allowing the operator to best adapt to the situation to be faced.
- An **acoustic signal** warns the operator when the collection bag is full or in case of obstruction of the suction pipe.
- The **outlet and primary cartridge filters** allow CA POD SILENZIO to reintroduce clean air into the environment. Outlet HEPA filter available as an optional.
- Equipped with **4 wheels, two pivoting at the front and two larger ones at the rear** that allow you to move the vacuum cleaner in any direction.
- Its **ergonomic design** of CA POD SILENZIO allows you to transport it effortlessly.
- The **innovative cube shape** increases the capacity of the collection container and its resistance
- The **foldable handle** positioned in the upper part of the aspirator facilitates its transport.
- Thanks to the **large paper collection bag**, CA POD SILENZIO is able to work uninterruptedly for prolonged periods.
- The **large rear compartment** allows you to store the cable and all the accessories of the vacuum cleaner to optimise space and be able to easily store it anywhere.
- **Two fixing points** for the various accessories (lateral and rear) to hold the suction hose
- The **12 m high visibility cable** is equipped with quick release and anti-tear system to increase operator safety during cleaning operations.
- The **lever** positioned on the front allows you to easily open the vacuum cleaner to intervene if necessary.
- CA POD SILENZIO is equipped with a **practical access** positioned in the upper part of the aspirator which allows you to easily reach the motor, facilitating maintenance operations.
- The **new connection and release system of the 3 m reinforced hose** via screwing makes CA POD SILENZIO safe and simple to use.
- The **easily maneuverable and extendable telescopic tube** allows you to clean even the most difficult to reach places.
- Two nozzles available, an **upholstery nozzle** for vacuuming horizontal and vertical surfaces and a **flat lance** for correct cleaning of corners and skirting boards.
- The **Wessel-Werk brush** guarantees durability and adapts perfectly to any type of surface.
- The **low noise level** makes CA POD SILENZIO suitable for operating even in environments where the noise level is important
